

PIYUSH YADAV

Kanpur, Uttar Pradesh +91-8887583014, piyush.yadav.ec@gmail.com [LinkedIn](#) [GitHub](#) [Portfolio](#)

PROFESSIONAL SUMMARY

Software Engineer graduating in 2026 with a background in Electronics & Communication Engineering and hands-on full-stack development experience. Proficient in Object-Oriented Programming (OOP), Data Structures & Algorithms (DSA), and building applications using Python, JavaScript, TypeScript, React.js, and Node.js. Experienced in designing, testing, and debugging front-end and back-end systems with a focus on scalable code and RESTful API integration.

TECHNICAL SKILLS

Core Concepts & Tools: Data Structures & Algorithms, OOP, SDLC, Git

Languages: Java, Python, JavaScript, TypeScript, SQL

Front-End: React.js, Next.js, Tailwind CSS

Back-End: Node.js, Express.js, Django, Flask, REST APIs

Databases & Cloud: MySQL, MongoDB, AWS, CI/CD basics

Other: AWS, REST APIs, CI/CD basics

PROJECTS

WebLoom Service Provider | *JavaScript, HTML5, CSS3, Web3Forms API, Git* July 2026

- Designed and developed a full-stack financial tracking application using OOP principles in Python/Flask, with RESTful APIs for expense management and interactive Chart.js visualizations for spending analytics.
- Built and tested a responsive, user-friendly interface using Bootstrap and HTML/CSS to improve usability and accessibility across devices.

AI Virtual Calculator | *Python, OpenCV, Computer Vision* March 2025

- Developed and debugged a gesture-based calculator that recognizes hand-drawn mathematical expressions in real time using computer vision and image processing techniques.
- Implemented and tested custom detection algorithms to accurately track hand gestures and translate them into mathematical operations.

Yatri – Uber UI Clone | *React.js, Tailwind CSS, HTML, CSS* September 2025

- Built a responsive front-end clone of Uber's interface using React.js and HTML/CSS, focused on component structuring, state management, and smooth UI transitions.
- Implemented reusable, testable React components with Tailwind CSS to replicate a production-grade design system.

EDUCATION

BTech, Electronics & Communication Engineering, AKTU, PSIT Dec 2022 – June 2026
Kanpur, Uttar Pradesh

Higher Secondary (12th Grade), CBSE, Morning Star Secondary School July 2020 – July 2022
Orai, Uttar Pradesh

CERTIFICATIONS

- Python Data Structures & Algorithms — Udemy (March 2026)
- Saviynt Identity Security for the AI Age — Saviynt (Dec 2025)
- AWS Essentials — Udemy (Feb 2025)
- Software Engineer Certification — HackerRank (June 2024)

ACHIEVEMENTS

- Patent Inventor:** Named inventor on a published Indian patent for an AI-powered wearable safety device.
- Achieved a 5-star Python rating on HackerRank, reflecting advanced programming proficiency.
- Solved 150+ coding problems across LeetCode and CodeChef, with 130+ verified on LeetCode.
